

Mon 28/12/2009

Dear Peter,

We would like to "Thank You" for the beautiful job you have done on restoring our lead light doors on our antique side board.

My husband John has taken to restoring old furniture and we were given an old kitchen dresser that was in dire need of attention.

After spending weeks searching this area for someone to restore our lead light we were on the verge of giving up when our friend recommended you.

From the first time we spoke to the finish we were impressed by your friendly manner, professionalism and attention to detail.

Even though we reside in different states the time frame to fruition was minimal as was the cost (which really surprised us).

I would have no hesitation to recommend you to anyone who wants true quality from a true craftsman.

Thank you once again.
