

To Whom It May Concern,

Peter Robertson has been commissioned to create stained glass works in my home on two occasions, firstly renewing and replacing a front door fanlight and front door glass insert, and then creating stained glass insert panels for my bathroom windows.

Peter is a meticulous craftsman, assisting with glass and design selection and pays incredible attention to detail. He makes sure that the glass work suits the location, and is what the Owner wants!

Peter is prompt and courteous and gives continuous feedback, so that the Client is aware of the project's progress.

I recommend Peter highly for any Stained-Glass project, as I am extremely happy and proud of his works that are on display in my home.
